

## Agenda

### WCRE Workshop „Legal framework for onshore wind in the EU“

#### Background:

The Global Wind market is evolving, regulatory conditions are crucial for investment security. Recent changes in EU legislation have changed the legal landscape of the wind power industry in general, raising questions and creating unknowns for companies wishing to install wind farms in the European geographic region and beyond. This workshop will look into key issues around onshore wind power development, the regulation on EU and national level.

#### Part 1: Onshore-wind specific issues and solutions in legislation

- 12:30-13:00**      **Welcome and Introduction**
- Introduction in the objectives of WCRE and in this workshop's topics
  - Klaus Rave, Chairman, Global Wind Energy Council
  - Introduction to the days agenda and the experience of WCRE member, BBH (Dr. Doerte Fouquet)
- 13:00 – 14:00**      **Onshore-wind specific issues and solutions in legislation**
- General “problems” with larger onshore wind
